

BICAR® Sodium Bicarbonate Ultra Fine Grade

Revision Date 03/17/2017

SECTION 1: Identification of the substance/mixture and of the company/undertaking**1.1 Product identifier**

- Trade name BICAR® Sodium Bicarbonate Ultra Fine Grade
- Chemical name Sodium hydrogencarbonate
- Synonyms Sodium bicarbonate
- Molecular formula NaHCO₃

1.2 Relevant identified uses of the substance or mixture and uses advised against**Uses of the Substance / Mixture**

- Food/ feedstuff additives
- Detergent
- Chemical industry
- Glass industry
- Foaming agent
- Water treatment
- Environmental protection
- Purifying flue gas
- Animal feedstuff

1.3 Details of the supplier of the safety data sheet**Company**

SOLVAY CHEMICALS, INC.
3737 Buffalo Speedway,
Suite 800,
Houston, TX 77098
USA
Tel: +1-800-7658292; +1-713-5256800
Fax: +1-713-5257804

1.4 Emergency telephone

FOR EMERGENCIES INVOLVING A SPILL, LEAK, FIRE, EXPOSURE OR ACCIDENT CONTACT: CHEMTREC 800-424-9300 within the United States and Canada, or 703-527-3887 for international collect calls.

SECTION 2: Hazards identification

Although WHMIS has not adopted the environmental portion of the GHS regulations, this document may include information on environmental effects

2.1 Classification of the substance or mixture**Hazardous Products Regulations (WHMIS 2015)**

- Not classified as hazardous product under the regulation above.

2.2 Label elements**Hazardous Products Regulations (WHMIS 2015)**

- Not labelled as hazardous product under the regulation above.

2.3 Other hazards which do not result in classification

- Product dust may be irritating to eyes, skin and respiratory system.

SECTION 3: Composition/information on ingredients**3.1 Substance****WHMIS Hazardous Ingredients and Impurities**

Chemical name	Identification number CAS-No.	Concentration [% wt/wt or V/V]
Carbonic acid sodium salt (1:1)	144-55-8	>= 98

3.2 Mixture

Not applicable, this product is a substance.

SECTION 4: First aid measures**4.1 Description of first-aid measures****In case of inhalation**

- Move to fresh air.
- If symptoms persist, call a physician.

In case of skin contact

- Wash off with soap and water.

In case of eye contact

- Rinse thoroughly with plenty of water, also under the eyelids.
- If eye irritation persists, consult a specialist.

In case of ingestion

- Rinse mouth with water.
- If symptoms persist, call a physician or Poison Control Center immediately.

4.2 Most important symptoms and effects, both acute and delayed**In case of inhalation****Effects**

- No hazards to be specially mentioned.

In case of skin contact**Effects**

- No hazards to be specially mentioned.

Repeated or prolonged exposure

- Contact with dust can cause mechanical irritation or drying of the skin.

In case of eye contact**Effects**

- Dust contact with the eyes can lead to mechanical irritation.

In case of ingestion**Effects**

- Ingestion may cause gastrointestinal irritation, nausea, vomiting and diarrhea.

4.3 Indication of any immediate medical attention and special treatment needed

Notes to physician

- When symptoms persist or in all cases of doubt seek medical advice.

SECTION 5: Firefighting measures**5.1 Extinguishing media****Suitable extinguishing media**

- Use extinguishing measures that are appropriate to local circumstances and the surrounding environment.

Unsuitable extinguishing media

- None.

5.2 Special hazards arising from the substance or mixture**Specific hazards during fire fighting**

- Not combustible.

Hazardous combustion products:

- none
- Barium oxide
- Other hazardous decomposition products may be formed.

5.3 Advice for firefighters**Special protective equipment for fire-fighters**

- In the event of fire, wear self-contained breathing apparatus.
- Use personal protective equipment.

SECTION 6: Accidental release measures**6.1 Personal precautions, protective equipment and emergency procedures****Advice for non-emergency personnel**

- Evacuate personnel to safe areas.
- Avoid dust formation.

Advice for emergency responders

- Use personal protective equipment.
- Sweep up to prevent slipping hazard.
- Prevent further leakage or spillage.

6.2 Environmental precautions

- Do not flush into surface water or sanitary sewer system.
- Prevent any mixture with an acid into the sewer/drain (gas formations).

6.3 Methods and materials for containment and cleaning up

- Pick up and transfer to properly labeled containers.
- Keep in suitable, closed containers for disposal.

6.4 Reference to other sections

- Refer to protective measures listed in sections 7 and 8.

SECTION 7: Handling and storage**7.1 Precautions for safe handling**

- Ensure adequate ventilation.
- Minimize dust generation and accumulation.
- Avoid contact with skin and eyes.
- Keep away from incompatible products

Hygiene measures

- When using do not eat, drink or smoke.
- Wash hands before breaks and at the end of workday.
- Handle in accordance with good industrial hygiene and safety practice.

7.2 Conditions for safe storage, including any incompatibilities**Technical measures/Storage conditions**

- Store in original container.
- Keep in a dry place.
- Keep in properly labeled containers.
- Keep container closed.

- Keep away from:
 - Incompatible products

Packaging material**Suitable material**

- Paper.
- Polyethylene

- Polypropylene
- Woven plastic material.
- Polyethylene

Unsuitable material

- no data available

7.3 Specific end use(s)

- no data available

BICAR® Sodium Bicarbonate Ultra Fine Grade

Revision Date 03/17/2017

SECTION 8: Exposure controls/personal protection

Introductory Remarks: These recommendations provide general guidance for handling this product. Because specific work environments and material handling practices vary, safety procedures should be developed for each intended application. Assistance with selection, use and maintenance of worker protection equipment is generally available from equipment manufacturers.

8.1 Control parameters**Components with workplace occupational exposure limits**

Consult local authorities for acceptable exposure limits.

Ingredients	Value type	Value	Basis
Carbonic acid sodium salt (1:1)	TWA	10 mg/m ³	Solvay Acceptable Exposure Limit

Components with workplace occupational exposure limits

Ingredients	Value type	Value	Basis
Particles not otherwise specified (PNOS)	TWA	10 mg/m ³	American Conference of Governmental Industrial Hygienists
<p>Form of exposure : Inhalable fraction</p> <p>The goal of the TLV®-CS Committee is to recommend TLVs® for all substances for which there is evidence of health effects at airborne concentrations encountered in the workplace. When a sufficient body of evidence exists for a particular substance, a TLV® is established. Thus, by definition the substances covered by this recommendation are those for which little data exist. The recommendation at the end of this Appendix is supplied as a guideline rather than a TLV® because it is not possible to meet the standard level of evidence used to assign a TLV®. In addition, the PNOS TLV® and its predecessors have been misused in the past and applied to any unlisted particles rather than those meeting the criteria listed below. The recommendations in this Appendix apply to particles that: - Do not have an applicable TLV®; - Are insoluble or poorly soluble in water (or, preferably, in aqueous lung fluid if data are available); and - Have low toxicity (i.e. are not cytotoxic, genotoxic or otherwise chemically reactive with lung tissue, and do not emit ionizing radiation, cause immune sensitization, or cause toxic effects other than by inflammation or the mechanism of 'lung overload'). ACGIH® believes that even biologically inert, insoluble, or poorly soluble particles may have adverse effects and recommends that airborne concentrations should be kept below 3 mg/m³, respirable particles, and 10 mg/m³, inhalable particles, until such time as a TLV® is set for a particular substance.</p>			
Particles not otherwise specified (PNOS)	TWA	3 mg/m ³	American Conference of Governmental Industrial Hygienists

Form of exposure : Respirable fraction

The goal of the TLV®-CS Committee is to recommend TLVs® for all substances for which there is evidence of health effects at airborne concentrations encountered in the workplace. When a sufficient body of evidence exists for a particular substance, a TLV® is established. Thus, by definition the substances covered by this recommendation are those for which little data exist. The recommendation at the end of this Appendix is supplied as a guideline rather than a TLV® because it is not possible to meet the standard level of evidence used to assign a TLV®. In addition, the PNOS TLV® and its predecessors have been misused in the past and applied to any unlisted particles rather than those meeting the criteria listed below. The recommendations in this Appendix apply to particles that: - Do not have an applicable TLV®; - Are insoluble or poorly soluble in water (or, preferably, in aqueous lung fluid if data are available); and - Have low toxicity (i.e. are not cytotoxic, genotoxic or otherwise chemically reactive with lung tissue, and do not emit ionizing radiation, cause immune sensitization, or cause toxic effects other than by inflammation or the mechanism of 'lung overload'). ACGIH® believes that even biologically inert, insoluble, or poorly soluble particles may have adverse effects and recommends that airborne concentrations should be kept below 3 mg/m³, respirable particles, and 10 mg/m³, inhalable particles, until such time as a TLV® is set for a particular substance.

8.2 Exposure controls**Control measures****Engineering measures**

- Provide appropriate exhaust ventilation at places where dust is formed.
- Apply technical measures to comply with the occupational exposure limits.

Individual protection measures**Respiratory protection**

- Use only respiratory protection that conforms to international/ national standards.
- Use NIOSH approved respiratory protection.

Hand protection

- Impervious gloves

Eye protection

- Safety goggles

Skin and body protection

- No special protective equipment required.

Hygiene measures

- When using do not eat, drink or smoke.
- Wash hands before breaks and at the end of workday.
- Handle in accordance with good industrial hygiene and safety practice.

BICAR® Sodium Bicarbonate Ultra Fine Grade

Revision Date 03/17/2017

SECTION 9: Physical and chemical properties

Physical and Chemical properties here represent typical properties of this product. Contact the business area using the Product information phone number in Section 1 for its exact specifications.

9.1 Information on basic physical and chemical properties

<u>Appearance</u>	<u>Form:</u> crystalline, powder <u>Physical state:</u> solid <u>Color:</u> white white
<u>Odor</u>	odorless
<u>Odor Threshold</u>	no data available
<u>Molecular weight</u>	84.01 g/mol
<u>pH</u>	8.4 (ca. 8.4 g/l) (77 °F (25 °C)) Water 8.6 (ca. 52 g/l) <u>pKa:</u> 6.3
<u>Melting point/freezing point</u>	<u>Melting point/range:</u> () Decomposition: yes
<u>Initial boiling point and boiling range</u>	<u>Boiling point/boiling range:</u> () Thermal decomposition: yes
<u>Flash point</u>	Not applicable, inorganic
<u>Evaporation rate (Butylacetate = 1)</u>	no data available
<u>Flammability (solid, gas)</u>	The product is not flammable.
<u>Flammability / Explosive limit</u>	<u>Explosiveness:</u> Not expected
<u>Autoignition temperature</u>	The product is not flammable.
<u>Vapor pressure</u>	Thermal decomposition
<u>Vapor density</u>	Not applicable
<u>Density</u>	2.21 kg/dm ³ <u>Bulk density:</u> 500 - 1,300 kg/m ³
<u>Relative density</u>	2.21 - 2.23 (68 °F (20 °C))

BICAR® Sodium Bicarbonate Ultra Fine Grade

Revision Date 03/17/2017

<u>Solubility</u>	<u>Water solubility:</u> 69 g/l (32 °F (0 °C)) 93 g/l (68 °F (20 °C)) 165 g/l (140 °F (60 °C)) <u>Solubility in other solvents:</u> Other : soluble
<u>Partition coefficient: n-octanol/water</u>	Alcohol : slightly soluble Not applicable, inorganic
<u>Decomposition temperature</u>	> 122 °F (> 50 °C)
<u>Viscosity</u>	<u>Viscosity, dynamic</u> : Not applicable
<u>Explosive properties</u>	no data available
<u>Oxidizing properties</u>	Not expected

9.2 Other information

no data available

SECTION 10: Stability and reactivity**10.1 Reactivity**

- Incompatible with acids.
- Decomposes slowly on exposure to water.

10.2 Chemical stability

- Stable under recommended storage conditions.

10.3 Possibility of hazardous reactions

- none

10.4 Conditions to avoid

- Exposure to moisture.
- To avoid thermal decomposition, do not overheat.

10.5 Incompatible materials

- Acids

10.6 Hazardous decomposition products

- none

SECTION 11: Toxicological information**11.1 Information on toxicological effects****Acute toxicity****Acute oral toxicity**

LD50 : > 4,000 mg/kg - Rat , male and female

BICAR® Sodium Bicarbonate Ultra Fine Grade

Revision Date 03/17/2017

Acute inhalation toxicity	Method: according to a standardized method The product has a low acute toxicity Unpublished reports
	LC50 - 4.5 h (Dust) : > 4.74 mg/l - Rat , male and female Method: according to a standardized method Not classified as hazardous for acute inhalation toxicity according to GHS. Unpublished reports
Acute dermal toxicity	no data available
Acute toxicity (other routes of administration)	no data available
<u>Skin corrosion/irritation</u>	Rabbit slight irritation Method: OECD Test Guideline 404 Unpublished reports
<u>Serious eye damage/eye irritation</u>	Rabbit slight irritation Method: OECD Test Guideline 405 Unpublished reports
<u>Respiratory or skin sensitization</u>	no data available
<u>Mutagenicity</u>	
Genotoxicity in vitro	Strain: Escherichia coli with and without metabolic activation negative Method: according to a standardized method Published data Ames test with metabolic activation negative Method: Mutagenicity (Salmonella typhimurium - reverse mutation assay) Published data
Genotoxicity in vivo	no data available
<u>Carcinogenicity</u>	no data available

This product does not contain any ingredient designated as probable or suspected human carcinogens by:
IARC

ACGIH

Toxicity for reproduction and development**Toxicity to reproduction / fertility** no data available**Developmental Toxicity/Teratogenicity**

Rat , female
 Application Route: Oral
 NOAEL teratogenicity: > 340 mg/kg
 Method: according to a standardized method
 Highest dose tested
 The product is not considered to be embryotoxic / fetotoxic.
 Unpublished reports

Rabbit , female
 Application Route: Oral
 NOAEL teratogenicity: > 330 mg/kg

Method: according to a standardized method
 Highest dose tested
 The product is not considered to be embryotoxic / fetotoxic.
 Unpublished reports

STOT**STOT-single exposure**

Routes of exposure: Oral, Inhalation
 The substance or mixture is not classified as specific target organ toxicant, single exposure according to GHS criteria.
 internal evaluation

STOT-repeated exposure no data available**Aspiration toxicity** no data available**SECTION 12: Ecological information****12.1 Toxicity****Aquatic Compartment****Acute toxicity to fish**

LC50 - 96 h : 7,100 mg/l - Lepomis macrochirus (Bluegill sunfish)
 flow-through test
 Analytical monitoring: yes

Method: according to a standardized method
 Unpublished internal reports
 Not harmful to fish (LC/LL50 > 100 mg/L)

Acute toxicity to daphnia and other aquatic invertebrates.

EC50 - 48 h : 4,100 mg/l - Daphnia magna (Water flea)
 flow-through test
 Analytical monitoring: yes
 Method: according to a standardized method
 Unpublished internal reports
 Not harmful to aquatic invertebrates. (EC/EL50 > 100 mg/L)

Toxicity to aquatic plants no data available

Toxicity to microorganisms no data available

Chronic toxicity to fish no data available

Chronic toxicity to daphnia and other aquatic invertebrates.

NOEC: > 576 mg/l - 21 Days - Daphnia magna (Water flea)
 semi-static test
 Analytical monitoring: no
 Method: OECD Test Guideline 211
 Highest concentration tested
 Published data
 No adverse chronic effect observed up to and including the threshold of 1 mg / L.

Chronic Toxicity to aquatic plants no data available

12.2 Persistence and degradability**Abiotic degradation****Stability in water**

Product dissociates rapidly to corresponding ions on contact with water.,

Physical- and photo-chemical elimination

no data available

Biodegradation**Biodegradability**

Not applicable, inorganic substance

12.3 Bioaccumulative potential**Partition coefficient: n-octanol/water**

Not applicable, inorganic substance

Bioconcentration factor (BCF)

According to the data on the constituents
Not potentially bioaccumulable
Expert judgment

12.4 Mobility in soil**Adsorption potential (Koc)**

According to the data on the constituents
non-significant adsorption
internal evaluation

Known distribution to environmental compartments

no data available

12.5 Results of PBT and vPvB assessment

Not applicable, inorganic substance

12.6 Other adverse effects

no data available

Ecotoxicity assessment**Acute aquatic toxicity**

Not harmful to aquatic life (LC/LL50, EC/EL50 > 100 mg/L)

Chronic aquatic toxicity

No adverse chronic effect observed up to and including the threshold of 1 mg / L.

SECTION 13: Disposal considerations**13.1 Waste treatment methods****Product Disposal**

- Contact waste disposal services.
- If recycling is not practicable, dispose of in compliance with local regulations.
- Dilute with plenty of water.
- Neutralize with acid.
- In accordance with local and national regulations.

Advice on cleaning and disposal of packaging

- Where possible recycling is preferred to disposal or incineration.
- Clean container with water.
- Dispose of rinse water in accordance with local and national regulations.
- Must be incinerated in a suitable incineration plant holding a permit delivered by the competent authorities.

SECTION 14: Transport information**TDG**

not regulated

P1100000103

Version : 1.01 / CA (Z8)

www.solvay.com

DOT

not regulated

NOM

not regulated

IMDG

not regulated

IATA

not regulated

Note: The above regulatory prescriptions are those valid on the date of publication of this sheet. Given the possible evolution of transportation regulations for hazardous materials, it would be advisable to check their validity with your sales office.

SECTION 15: Regulatory information**15.1 Notification status**

Inventory Information	Status
United States TSCA Inventory	- Listed on Inventory
Mexico INSQ (INSQ)	- In compliance with the inventory
Canadian Domestic Substances List (DSL)	- Listed on Inventory
New Zealand. Inventory of Chemical Substances	- In compliance with the inventory
Australia Inventory of Chemical Substances (AICS)	- Listed on Inventory
Japan. CSCL - Inventory of Existing and New Chemical Substances	- Listed on Inventory
Korea. Korean Existing Chemicals Inventory (KECI)	- Listed on Inventory
China. Inventory of Existing Chemical Substances in China (IECSC)	- Listed on Inventory
Philippines Inventory of Chemicals and Chemical Substances (PICCS)	- Listed on Inventory
Mexico INSQ (INSQ)	- Listed on Inventory
New Zealand. Inventory of Chemical Substances	- Listed on Inventory
EU. European Registration, Evaluation, Authorisation and Restriction of Chemical (REACH)	- If product is purchased from Solvay in Europe it is in compliance with REACH, if not please contact the supplier.

15.2 National Regulations

no data available

SECTION 16: Other information**Revision Date:**

03/17/2017

NFPA (National Fire Protection Association) - Classification

Health	1 slight
Flammability	0 minimal
Instability or Reactivity	0 minimal
Special Notices	None

BICAR® Sodium Bicarbonate Ultra Fine Grade

Revision Date 03/17/2017

HMIS (Hazardous Materials Identification System (Paint & Coating)) - Classification

Health	1 slight
Flammability	0 minimal
Reactivity	0 minimal
PPE	Determined by User; dependent on local conditions

Key or legend to abbreviations and acronyms used in the safety data sheet

- TWA	8-hour, time-weighted average
- SAEL	Solvay Acceptable Exposure Limit
- ACGIH	American Conference of Governmental Industrial Hygienists
- OSHA	Occupational Safety and Health Administration
- NTP	National Toxicology Program
- IARC	International Agency for Research on Cancer
- NIOSH	National Institute for Occupational Safety and Health

The information provided in this Safety Data Sheet is correct to the best of our knowledge, information, and belief at the date of its publication. Such information is only given as a guidance to help the user handle, use, process, store, transport, dispose, and release the product in satisfactory safety conditions and is not to be considered as a warranty or quality specification. It should be used in conjunction with technical sheets but do not replace them. Thus, the information only relates to the designated specific product and may not be applicable if such product is used in combination with other materials or in any other manufacturing process, unless otherwise specifically indicated. It does not release the user from ensuring he is in conformity with all regulations linked to its activity.
